

FWD-65X70H/T

65" BRAVIA 4K Ultra HD HDR Professional Display

Overview

Smart and simple, with beautiful pictures and sound

Smart, stylish and simple, the BRAVIA FWD-65X70H/T brings you wonderfully clear 4K HDR pictures with crisp, natural sound to match.

Whatever you're displaying, 4K X-Reality PRO upscales images close to 4K resolution, sharpening details for remarkable clarity and realism. TRILUMINOS Display faithfully reproduces a wider colour palette, from vivid hues to the subtlest tones.

BRAVIA also creates a more natural soundtrack, with Clear Audio+ optimising sound and dialogue for greater clarity and separation.

Smart Plug and Play makes it easy to play videos, photos and sound from your smartphone or USB drive.

Blending elegantly into any space, BRAVIA features a slim blade design, complemented by a narrow screen bezel that keeps you focused on the picture, not the display itself.

The BRAVIA FWD-65X70H/T is ideally suited to professional use, with Pro mode allowing quick and easy customisation to suit different environments.

Features

4K image resolution (3840 x 2160 pixels)

4K offers four times the detail of Full HD, with a resolution of over 8 million pixels bringing extra clarity to corporate display, education and digital signage applications.

See finer detail

4K X-Reality PRO upscales pictures closer to true 4K quality. Images are sharpened and refined in real time, revealing extra detail from lower-resolution picture sources.

Rich, natural colour with TRILUMINOS Display

TRILUMINOS Display maps colours from a wider palette, faithfully reproducing a world of more vivid, lifelike hues and tones.

A clearer, more natural soundtrack

Clear Audio+ optimises sound so that all sound and dialogue have greater clarity and separation, bringing you a closer-to-the-real-world listening experience.

The smarter way to enjoy your smartphone

Enjoy content from a smartphone or USB drive in beautiful big-screen detail. Smart Plug and Play makes it easy to share videos, photos and music from multiple devices.

Refined style to match your space

BRAVIA features a slim, contemporary blade design, with a narrow screen bezel that adds an extra touch of refinement to any interior.

Quick set-up with Pro Mode

Customise and store display settings and features, then copy easily to multiple displays via USB flash memory.

Easily create digital signage

Integrated support for HTML5 makes it easy to produce compelling digital signage. Combine graphics, text, video and live web content to create attractive signage in minutes with no extra hardware or special training.

Versatile remote control

Control BRAVIA remotely – including on/off, input signal select and adjust volume – over IP via RJ45 by web API.

TEOS Integration*

BRAVIA integrates seamlessly with TEOS, Sony's suite of workspace management applications that orchestrate control of devices and content in boardrooms, meeting areas and public spaces.

Specifications

Display Features	
Brightness (cd/m ²)	393
Native Contrast Ratio	5000:1
Dynamic Contrast Ratio	350000:1
